EDUCATION

Education is one of the basic pillars of wellbeing for the Socialists and the Town Halls (local authorities) can contribute to the promotion of equality and quality by the addition of integral projects, working in primary schools, giving impetus to nursery schools and facilitating a greater role

For this reason we want to:

- Increase the participation of the Municipal School Council in decision making which affects the development of education locally.
- Increase the number of local and regional career based training cycles at the I.E.S. "E. Pérez Piñero" secondary school (renewable energies, commercialisation of agricultural products, tourism, environment...)

- Create a text book deposit
- Put into effect the Municipal Health Education Plan with the Department of Health, Education centres and AMPAS.
- Increase the workshops at the Universidad Popular based on demand
- Create a music library linked to the Municipal Music School

CULTURE

The promotion of culture is a constant in Socialist ideology as we have always considered that increasing cultural levels powerfully contributes to the integral development of individuals.

- We will extend the contents of cultural spaces (Castle, Auditorium, Casa de la Cultura).
- We will extend the activities in alternative spaces (local squares and streets and different neighbourhoods)
- We will create a classic theatre cycle in the Open Theatre "El Castillo".
- We will organise a festival of local artists
- We will set aside 50% of the municipal cultural budget to boost

local initiatives (theatre groups, choir, artists, publications etc..)

SPORT

Our total commitment to sport takes the form of amplifying sporting activities in order to give a boost to alternative sports, and another objective would be to integrate all groups (disabled people, elderly people, women..) into taking part in sport.

To achieve this it will be necessary to:

- Increase the activities of the sports schools
- Finish the construction of the new stadium with the stand and changing rooms
- Build three new paddle tennis courts
- Help to extend the practice of sport among women

- Support the construction of new sports installations through grants and providing sites
- Construction of a white water canal.

YOUTH

Our resolute support for young people will continue to be a definite element of the Socialist Town Hall and for this reason, and among many other ideas we propose, we want to:

- Increase the number of grants and assistance for student transport
- Subsidise groups which develop youth activities
- Facilitate and offer new employment placements for young people (lift maintenance, installers, disinfection...)
- Actively support professional training, professional and employment workshops, specific employment for young people

- Propose the construction of a Youth Resource Centre

YOUTH

A new impetus for the care of infants by opening nurseries and developing activities focusing on this age group is the basis of our new proposals.

- We will build a new nursery school
- We will facilitate a new cooperative management regime for the new nursery school
- Adapt the opening hours of the municipal nursery services to the needs of parents.
- Develop a programme for infants and adolescents which will give our area recognition under the UNICEF scheme as a "Friendly City for Infancy"
- We will continue and expand the specific infrastructures for children

FIESTAS

Within the policy of austerity and

transparency, which are fundamental pillars of the performance of Socialist government, we want to continue to give impetus to our Fiestas which have become a regional reference.

We propose:

- Promoting the fiestas as an element to revitalise employment and the local economy (businesses, bars and restaurants, tourism etc..)
- Involve all the local sectors in the organisation and development of the Fiestas
- Continue to give impetus to the Encierros as a fiesta and tourist attraction
- Create a commission of peñas (clubs) of the local Saints which organizes activities during the Fiestas with the Town Hall and the Brotherhood of the Patron Saints
- Give impetus to the declaration of interest to tourism for the Encierros of Calasparra.
