# Social Welfare

ELDERLY PEOPLE\_ HEALTH\_ EQUALITY\_ CITIZEN PARTICIPATION

## SOCIAL WELFARE

Our commitment the social welfare of the people, and to this end we commit ourselves to provide comprehensive social services of a quality which guarantee to meet demand by promoting day centres, home helps.....

For this reason we want to:

- Help set up businesses or companies which develop services related to social welfare
- Build a Day Centre
- Establish tax subsidies for elderly people and those with disabilities
- Encourage social volunteering
- Increase the collaboration with social action entities

## ELDERLY PEOPLE

Given the current situation a fundamental objective of the Socialists is to help and prioritise groups considered "fragile."

For this reason we want to:

- Give impetus to programming courses for elderly people information technology, laughter memory therapy, yoga, gerontology....).
- Extend the use of new technologies among the elderly members of the population.
- Support and assist the different artistic and cultural expressions developed by elderly people (the Rondalla traditional song and dance group, traditional dance groups...).
- Give impetus to the creation of supported accommodation for elderly people.
- To continue and expand home help services, telephone assistance service and respite for families.....
- To extend the agreement to cover all places at the OAPs Residence

## HEALTH

Although the Town Hall has little direct responsibility for the provision of sanitary attention it

is vital to ensure we have the necessary resources as well as to develop professional training and awareness campaigns to encourage healthier habits amongst our citizens.

- We will develop the Municipal Health Education Plans
- We will demand the provision of personnel necessary for a 24 hour emergency health service
- We will ask for specific administrative staff for Valentin rather than sharing with Calasparra
- We will organise training courses for parents, teachers and pupils in order to increase awareness of necessary preventative health measures
- We will develop campaigns to raise awareness of the risks of drug addictions (narcotics, alcohol, tobacco...)

## EQUALITY

We must continue to work on the development of Equality Policies in order to eradicate every type of discrimination and anything else that impedes true equality.

For this reason we want to:

- Develop the first Equality Plan and design the second.
- Create a local Department of Equality
- Establish workshops and courses specifically for women aimed at improving their access to the job market
- Develop Domestic Violence information and awareness campaigns
- Support groups which develop activities to promote equality

## CITIZEN PARTICIPATION

It will be one of the Socialist Town Hall's priorities to facilitate the control of government actions and promote the participation of citizens in municipal activity.

We consider transparency and the participation of citizens is essential to ensure that the performance of the government is objective and productive.

For this reason:

- We will continue to promote association
- We will establish assistance for the creation of citizen participation groups
- We will begin the telematics (data transmission) administration through the E-Model Project
- We will facilitate the use of new technologies as a means of communication and interchange between the administration and citizens
- We will establish a periodic consultation plan in order to keep abreast of the needs of local associations and groups
- We will resolutely support the constitution of residents' associations.
